

INSTRUCTION MANUAL

Model: CM17IK-22 E-Trap

The E-Trap is a safe and environmentally friendly way of controlling blood sucking, biting and stinging insects. Our E-Trap attracts the insects by UV LED and suction from the fan will draw them quickly into the capture net on the lower compartment. Once they are in the capture net, they can not escape with trap door system and will slowly die of dehydration without the use of chemicals or poisons. It is quiet, energy saving, safe and ease of use and clean.

Warning:

- Disconnect from power before cleaning.
- Never put metal objects inside the device while in operation.
- Keep away from flammable materials.
- If damaged, trap must be repaired or replaced by a qualified technician.
- Do not submerge the device in water or other liquids.
- Do not cover the device while in use.
- For indoor use only!
- Keep away from children.

DIRECTION:

- Place trap on a flat, clean surface
- Close windows and doors and turn off lights.
- Plug into a secure socket and make sure Mosquito Trap light is on.

MAINTENANCE AND CLEANING:

- Unplug and remove the collection tray.
- Dispose of insects regularly. We suggest cleaning as needed, or at least monthly.
- Use a soft cloth to remove any dust from the Mosquito Trap.
- If the appliance is excessively dirty, use a soft cloth moistened with tepid water and mild soap.
- Let the product dry completely before use.
- Do not wash the appliance under running water.
- Do not use oils, chemical substances or other items to clean trap.

Input power: 220V~60Hz
